

**Workshop for Judges of Debts Recovery Appellate
Tribunals and Debts Recovery Tribunals**

The slowdown in the domestic economy has caused strains on a number of companies/projects resulting in higher non-performing assets (NPAs) and restructured accounts in the Indian banking system in recent years. This not only impacts the profitability of banks but also constrains banks' ability to further lend to productive sectors of the economy. The Reserve Bank and the Government have initiated a number of measures to provide an effective framework for recovery of non-performing loans with measures like setting up of DRTs under the Recovery of Debts Due to Banks and Financial Institutions (RDBFI) Act, 1993.

Program Objective

The objective of the program is to have an interaction with the Judges of DRATs and the Presiding Officers (POs) of DRTs to understand the problems/issues faced by them in settling the cases as also to update them about the regulations and nuances of NPA management.
